**QUESTION ONE**

Read the Case Study below carefully and answer the questions that follow:

**MOSORIOT TEACHING AND REFERRAL HOSPITAL (MTRH)**

The Mosoriot Teaching and Referral Hospital (MTRH) in Nairobi which is under the Ministry of Health advertised a national tender for supply, delivery and installation of dialysis machines. The procurement department used the technical specifications that were provided by the user department. The head of the user department had obtained the specifications from a supplier, a local dealer of one of the European Manufacturers of dialysis machine. The specifications made reference to the brand name of the machine/manufacturer.

Two days after the advert, the head of the procurement unit received a number of emails from several suppliers seeking for clarification on the specifications. One of the suppliers, Health Equipment Distributors Limited applied to the Public Procurement Administrative Review Board (PPARB) seeking orders to cancel the tender citing skewed specifications to favor a specific supplier.

The Secretary to the Review Board wrote to MTRH instructing the procuring entity to stop the procurement proceeding until the case is heard and determined by the Board.

**Required:**

- a) Recommend to MTRH Four main approaches to specification development **(8 Marks)**
- b) Illustrate the process followed in developing specifications for procurement of the dialysis Machine **(12 Marks)**
- c) Suggest five mitigation approaches in specification development that MTRH may consider in future. **(10 Marks)**
